# RENT – Nicer for all

Property owners • Social landlords • Caravan and camping grounds • Marinas • Hotels

# Nicer for all with free dog waste bags

The numbers of dogs continues to increase. Dog owners not only have major responsibilities when it comes to their pets, but also to the community. Even if people are required by law to pick up after their dogs, far from all do so. With the TiksPac concept everyone wins – tenants, visitors and those who maintain the grounds.

## RENT a win-win concept for all

Property owners, housing associations, camp grounds and hotels, for example, lease TiksPac stations. The stations are placed out in your area for the convenience of dog owners, and at the same time, showcase your brand.

TiksPac stations are supplied fully assembled, including brackets for mounting on existing poles or walls. 2,500 biodegradable dog waste bags per year are included for each of your stations.

## Free for dog owners

A TiksPac station with free dog waste bags encourages dog owners to pick up after their dogs. You install the stations and are responsible for making sure that bags are available.

## Nicer environment

The stations result in cleaner green areas, playgrounds, sandboxes and paths. A cleaner environment and the benefits of the stations are appreciated by all.

## Reduce your cleaning and maintenance costs

Cleaning and maintenance costs represent a large portion of any organisation's operating budget. With TiksPac stations, we reduce your costs.

## Communicate with your tenants

Accompanying the TiksPac stations is an information sheet that can be posted in stairwells or on bulletin boards. These are used to increase understanding of why it is important for people to pick up after their dogs. With TiksPac stations in your area, you provide a service that is appreciated, and at the same time, attracts new tenants and visitors.

Information sheet.

# The concept reduces your cleaning and maintenance costs

## Our products

### TiksPac-dog waste bags

The dog waste bags are biodegradable in accordance with the European standard EN-13432. The bags are 100% environmentally friendly.

### TiksPac-station

The TiksPac station is custom designed as a forged sign board for dispensing free dog waste bags.

## How the agreement works:

- TiksPac supplies the stations along with the associated free dog waste bags
- The stations are mounted on existing posts or walls
- 2,500 bags per station are provided each year
- TiksPac makes any necessary repairs free of charge
- Information sheets accompany delivery

# Cleaner environment

TiksPac launched a solution in 2001 to the problem of dog owners neglecting to pick after their pets – a problem that occurs in nearly all municipalities for property owners and public cleaning and maintenance departments in urban areas. The solution was to install stations with free dog waste bags.

The concept is in line with many of our clients' environmental initiatives and strivings towards sustainable operations. This is why the concept has been so favourably received. We currently have operations in the Nordic countries and England.
